

TRANSFER OF UNB PRECISE GEOID SOFTWARE

Petr Vaníček, Robert Kingdon, Artu Ellmann, David Avalos, Juraj Janak, Robert Tenzer, Mehdi Najafi, Jianliang Huang, Pavel Novak and Marcelo Santos have, in the course of their research at the University of New Brunswick, contributed to the development of SHGeo, software for use in determination of a precise geoid. These developers wish to make available the software to others for the purpose of non-commercial, research and development, with the aim of continually improving the tool and distributing updates and new versions to software users.

To ensure that potential users will learn how to properly use the software, UNB is asking that before licensing the software all users contact the software administrator to schedule delivery of a training workshop. Potential users may also wish to have delivered a course on the theory underlying the software. Please, contact Robert Kingdon to schedule the mandatory workshop and the optional course.

Department of Geodesy and Geomatics Engineering
The University of New Brunswick
P.O. Box 4400
Fredericton, New Brunswick, Canada
E3B 5A3
Phone: (506) 453-4648
Fax: (506) 453-4611
E-mail: robert.kindgon@unb.ca

Once the course has been scheduled, please print, complete, and have signed the license agreement by an authorized representative of your institution. Send a fax copy and two originals of the signed license agreement to:

Office of Research Services
The University of New Brunswick
P.O. Box 4400
Fredericton, New Brunswick, Canada
E3B 5A3
Phone: (506) 453-4900
Fax: (506) 453-3552

Once fully signed, an original of the license agreement, the software and the accompanying manual will be sent to you.
